

Junction Box	Pole Mount
PFA135	PFB135 + PFA152-E
 A line drawing of a junction box (PFA135) mounted on a diamond-shaped plate. The junction box is cylindrical with a flange and a central circular opening. The plate has a hatched pattern on its top surface.	 A line drawing of a pole mount (PFB135 + PFA152-E) showing a cylindrical pole with a mounting bracket and a junction box attached. The bracket has two curved arms that wrap around the pole to secure the junction box.
