## TVI Dome Camera

### User Manual

**UD.6L0201D2131A01**

Thank you for purchasing our product. If there are any questions, or requests, please do not hesitate to contact the dealer.

This manual refer to the models below.

Type	Model
I	DS-2CE56C0T-IRX DS-2CE56D0T-IRX
II	DS-2CE56C0T-VPIR

In the model list, "X" indicates single or multiple letters. For example, DS-2CE56C0T-IRX can be DS-2CE56C0T-IRMM.

This manual may contain several technical incorrect places or printing errors, and the content is subject to change without notice. The updates will be added to the new version of this manual. We will readily improve or update the products or procedures described in the manual.

#### Privacy Notice

Surveillance laws vary by jurisdiction. Check all relevant laws in your jurisdiction before using this product for surveillance purposes to ensure that your use of this product conforms.

Please refer to the product specification for camera parameters and functions.

#### Regulatory Information

##### FCC Information

**FCC compliance:** This equipment has been tested and found to comply with the limits for a digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.

##### FCC Conditions

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference.
2. This device must accept any interference received, including interference that may cause undesired operation.

#### EU Conformity Statement

This product and - if applicable - the supplied accessories too are marked with "CE" and comply therefore with the applicable harmonized European standards listed under the Low Voltage Directive 2006/95/EC, the EMC Directive 2004/108/EC, the RoHS Directive 2011/65/EU.

2012/19/EU (WEEE directive): Products marked with this symbol cannot be disposed of as unsorted municipal waste in the European Union. For proper recycling, return this product to your local supplier

upon the purchase of equivalent new equipment, or dispose of it at designated collection points. For more information see: [www.recyclethis.info](http://www.recyclethis.info).

2006/66/EC (battery directive): This product contains a battery that cannot be disposed of as unsorted municipal waste in the European Union.

See the product documentation for specific battery information. The battery is marked with this symbol, which may include lettering to indicate cadmium (Cd), lead (Pb), or mercury (Hg). For proper recycling, return the battery to your supplier or to a designated collection point. For more information see: [www.recyclethis.info](http://www.recyclethis.info).

#### Industry Canada ICES-003 Compliance

This device meets the CAN ICES-3 (A)/NMB-3(A) standards requirements.

## 1 Introduction

### 1.1 Product Features

This series of camera adopts new generation sensor with high sensitivity and advanced circuit design technology. It features high resolution, low image distortion and low noise, etc., which makes it suitable for surveillance system and image processing system.

- High performance CMOS sensor and high resolution bring high-quality image;
- Low illumination;
- Support auto white balance;
- Unit transmission control;
- Advanced 3-axis design meets different installation requirements.

## 1.2 Overview

## 2.1 Installation of Type I Camera

### Steps:

1. Pry the snap joint up to remove the bubble and the black liner.

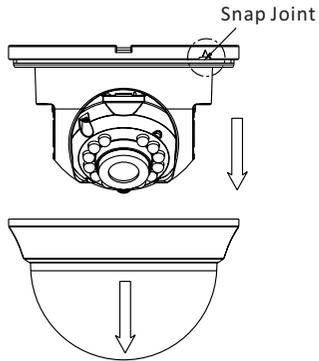

Figure 2-1 Remove the Bubble

2. Drill the screw holes and cable hole according to the drill template.

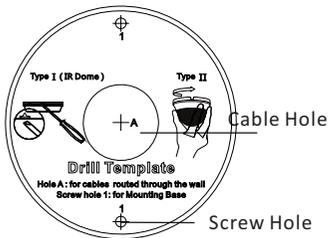

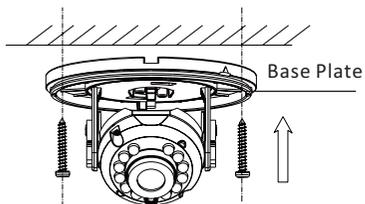

Figure 2-2 The Drill Template

3. Align the base plate with the mounting template and secure it with supplied self-tapping screws.

4. Route the cables through the cable hole.
5. Connect the corresponding cables.
6. Adjust the camera according to the figure below to get an optimum angle.

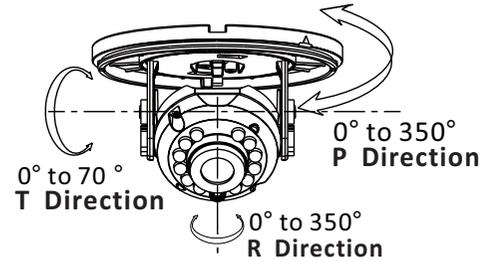

Figure 2-4 3-axis Adjustment

7. Push the black liner and bubble toward the camera and buckle them upon to secure them on the camera.

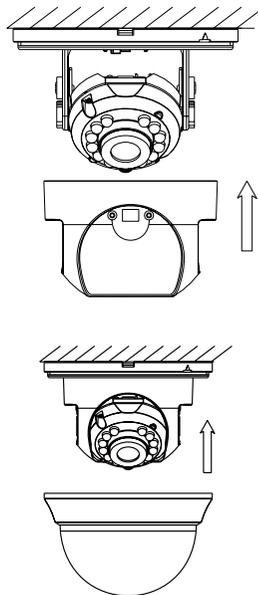

Figure 2-5 Complete the Installation

Rotate the bubble after completing the installation may change the position of the lens.

## 2.2 Installation of Type II Camera

1. Loosen the screws on the bubble to remove the bubble and the black liner.

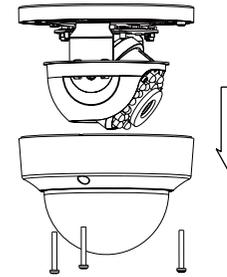

Figure 2-6 Remove the Bubble

2. Drill the screw holes and cable hole on the ceiling according to the supplied drill template.

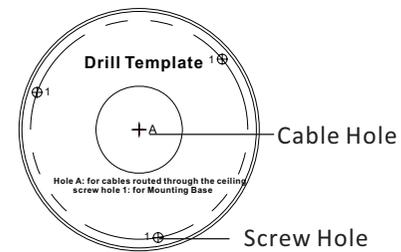

Figure 2-7 Drill Template

3. Align the base plate with the mounting template and secure it with supplied self-tapping screws.

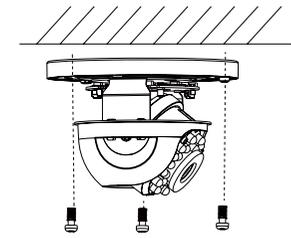

Figure 2-8 Fix the Camera to the Ceiling

4. Route the cables through the cable hole.
5. Connect the corresponding cables.
6. Adjust the camera according to the figure below to get an optimum angle.

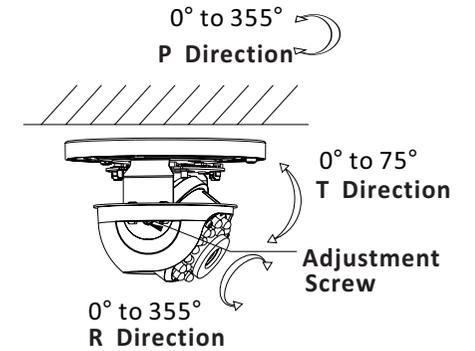

Figure 2-9 3-axis Adjustment

8. Fit the black liner and bubble on the camera.
